CHOOSING THE RIGHT WINDOW BAR

1

CHOOSE SIZE

1. Determine Mounting Type

- window bars may be mounted on either INSIDE or SURFACE of the window

2. Measure Height

- measure window opening (inside of window frame)

3. Measure Width

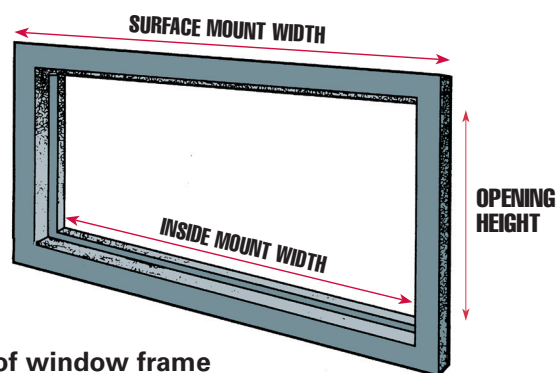

- for INSIDE MOUNT, measure inside of window frame
- for SURFACE MOUNT, measure outside of window trim

4. Select Size

- choose appropriate height and width from options shown on reverse

5. Larger Openings

- for tall windows, use multiple bars or mount bars vertically
- for extra wide windows, join two or more bars together with our joining post

2

CHOOSE COLOR

WHITE
STANDARD COLOR

BLACK
SPECIAL ORDER

TITANIUM
SPECIAL ORDER

3

CHOOSE MODEL

1. Fixed (non-opening)

- permanent installation
- most economical choice

2. Hinged (swing away)

- opens easily for window cleaning/repair
- may be secured with either a padlock or Keyless Quick Release Locking System

3. Removable (for periodic use)

- perfect for cottages or store fronts
- removable locking ends on both sides allow you to remove the bars for an unobstructed view through your windows

SAFETY CONCERNS

Windows in sleeping rooms and in basements with habitable space are typically used as secondary means of escape. These windows should be secured with the MR.GOODBAR® Keyless Quick Release Locking System.
