The GMR Mission

To bring the international listening community the absolute best music, artist interviews, and more.

To provide innovative artists with airtime, marketing, and promotional tools they require to take their skills to a higher level.

OUR FUTURE CLIENTS

Our Future Client(s):

Global Mix Radio (GMR) offers businesses the opportunity to advertise on air as well as on the Internet at www.Globalmixradio.com for a low cost and with great results. In the past ten years, the Internet has become people's main source of information, business ventures, shopping, marketing and entertainment. With so many people logging onto their computers, Internet marketing has grown astronomically. Many companies now see a greater consumer response from a diverse and broad demographic base.

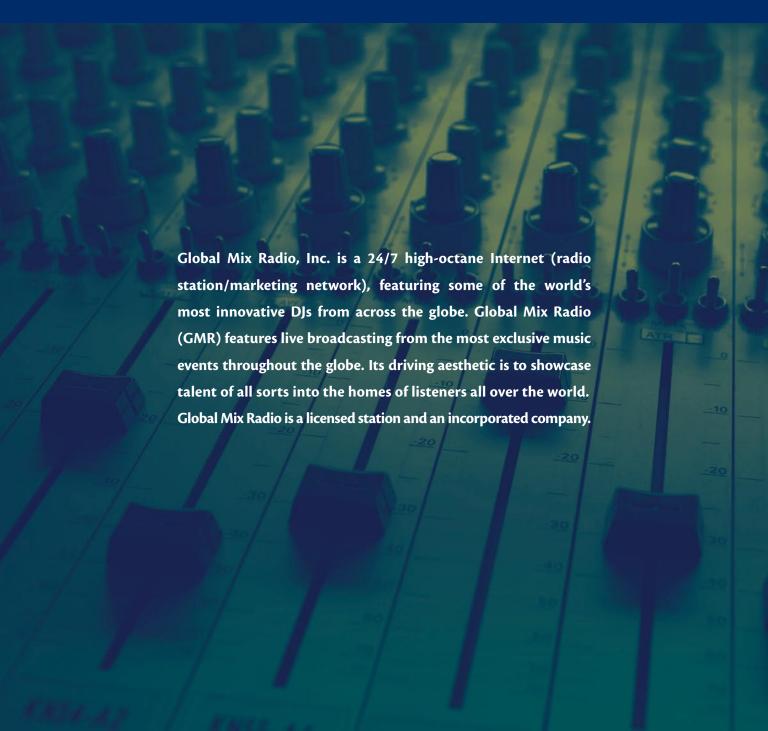

With this in mind, GMR offers our sponsors the opportunity to advertise both on air or on our website thereby reaching an even more diverse consumer.

Global Mix Radio was created to give less known Disc Jockeys with undiscovered talent the chance to receive the recognition and exposure worldwide that they deserve. Where today's music industry focuses more on a commercialized level, we offer our listeners what they have been asking for: a greater music selection 24 hours a day, 7 days a week. Essentially, it gives us great pleasure to unite people from all over the world. Although our goal is to play the best music, we also deliver to our audience comedy shows and talk sessions with special guests. This gives them the chance to familiarize themselves with on air personalities and maximize their experience.

I hope that you decide to become a part of the Global Mix Radio Team and advertise with us. As you can see we expect the best and will except nothing less!

Global Mix Radio is a licensed station and an Incorporated Company.

As we constantly expand the definition of the music business and make networking the fundamental basis of communication, our vision continues to evolve. We consistently reach out to our listeners.

Global Mix Radio has established relations with hundreds of marketing agents, promoters, managers and event organizers, Independent groups, DJs, and others. We work hard to bring our international brand to their local listeners everywhere: in the clubs, in their homes, in their cars and on there I Pods. As our audience continues to grow, big music conglomerates like Clear Channel supplant genuine music with Mc-Entertainment whereas Global Mix Radio harnesses the full potential of the Internet to bring the global language and art of rhythm to listeners of all nationalities.

By bringing music novelty to numerous environments all over the world, our strategy to change the way you listen to music is steadfast. Our music excites and provokes audiences everywhere to move, feel and act. We deliver sound in an uncommon way, where artistic integrity is always at the forefront. It's a win/win situation for performers and audiences alike. We have reinvented the wheel because we are proactive and take a progressive stance in this industry.
